

Tuesday Scoring Routine & Full Preparedness

Tuesday gives you an opportunity to combine **Alliance Duel Building Day** with **Full Preparedness**.

Find Your Two Windows

According to the supplied State 775 guidance:

Full Preparedness runs Shelter Upgrade twice on Building Day.

These are the windows you want to identify before spending your saved construction resources.

Check the Full Preparedness Calendar

Use the Event Calendar to determine when **Shelter Upgrade** occurs in your local time.

Don't rely on somebody else's clock or time zone.

Check your own calendar.

Why the Windows Matter

When the applicable events overlap, the same spending can contribute toward:

Alliance Duel Points

AND

Full Preparedness

That's the strategy:

One action → progress toward two rewards

Spending those resources outside the appropriate Full Preparedness windows may still provide Alliance Duel value, but you give up the opportunity to also use that action toward the overlapping Full Preparedness objective.

Your Tuesday Routine

1. Check the Event Calendar

Find both **Shelter Upgrade** windows.

2. Prepare your Orange Bounties

Use saved refresh tickets to search for Orange.

3. Prioritize Orange Refugees

Refresh or hold for the best available Refugees.

4. Complete saved building upgrades

Finish upgrades you've intentionally carried into Tuesday.

5. Use Building Speedups

Spend the speedups you've stockpiled during the week.

6. Watch your reward progress

Don't spend resources blindly. Pay attention to what you need to reach your next reward milestone.

Page 3 Rule

DO YOUR BIG SPENDING INSIDE THE SHELTER UPGRADE WINDOWS WHEN POSSIBLE.
