

Step-by-Step Beginner Guide

New to Last Z? Follow these five essential steps to get your account started the right way. Learn what to focus on first, how to grow your base, why joining an active alliance matters, and how to avoid wasting valuable diamonds and resources.

- [Start With the Basics](#)
- [Build, Grow & Find an Alliance](#)
- [Protect Your Diamonds & Claim Free Rewards](#)

Start With the Basics

Step 1: Complete the Tutorial

The tutorial teaches you the basic controls, combat mechanics, and base-building systems.

Don't skip it.

Completing the tutorial provides useful early rewards, including:

- Free resources
- Heroes
- Access to essential game features

It only takes around **10-15 minutes** and gives you the foundation you need before moving on.

Step 2: Focus on Main Quests

Your **Main Quest** appears on the left side of your screen and should be your primary roadmap during the beginning of the game.

Following the Main Quest helps unlock:

- New buildings
- Heroes
- Game modes
- Additional features

It's easy to get distracted by exploration and other activities, but those can wait.

Beginner Tip: Focus on your Main Quest until you've established a solid base and understand the game's main systems.

1

COMPLETE THE TUTORIAL

The tutorial teaches you basic controls, combat mechanics, and base building. Don't skip it — completing the tutorial gives you free resources, heroes, and unlocks essential features.

 Takes **10-15 minutes**.

YOU'LL RECEIVE:

2

FOCUS ON MAIN QUESTS

The main quest line (shown on the left side of your screen) is your roadmap. Following it unlocks new buildings, heroes, and game modes.

FOLLOWING THE MAIN QUEST HELPS UNLOCK:

Build, Grow & Find an Alliance

Step 3: Join an Active Alliance

Joining an active alliance is one of the most important things a new player can do.

An active alliance provides:

- Resource help
- Alliance gifts
- Group events
- Help with progression
- Protection and support from other players

Look for an alliance with **active members** and check its recent activity.

If you join an alliance that isn't active, **don't be afraid to switch**. Staying in a dead alliance can slow down your progress.

Step 4: Upgrade Your Base

Your **Headquarters (HQ)** is one of your most important buildings because its level controls much of your future progression.

Prioritize upgrading your HQ while gathering the resources needed for continued growth.

A strong early economy helps you progress faster later.

Use Speed-Ups Wisely

Don't burn through all of your speed-ups on short timers.

Save them when possible for **longer and more important upgrades**, where they provide much greater value.

3 JOIN AN ACTIVE ALLIANCE

Alliances provide huge benefits and are one of the most important parts of the game.

- Resource Help
- Alliance Gifts
- Group Events
- Help with Progression
- Protection and Support

Look for an alliance with active members and check their recent activity.

! If you join a dead alliance, don't be afraid to switch. Staying in an inactive alliance can slow down your progress.

4 UPGRADE YOUR BASE

Your Headquarters (HQ) is the most important building early on because it limits everything else. Prioritize your HQ while gathering the resources needed for continued growth. A strong early economy helps you progress faster later.

USE SPEED-UPS WISELY

Don't use speed-ups on short timers. Save them for longer and more important upgrades, where they provide much greater value.

Protect Your Diamonds & Claim Free Rewards

Step 5: Save Your Diamonds

Diamonds are valuable, especially for new players.

Avoid wasting them on things such as:

- Random chests
- Unnecessary timer speed-ups
- Purchases that provide little long-term value

Instead, consider saving your diamonds for higher-value opportunities such as:

- Guaranteed hero summons
- Important events such as **Lucky Discounter**
- VIP upgrades

Patience pays off.

Keeping a healthy diamond reserve gives you more options when valuable events and opportunities appear.

Don't Forget Your Free Rewards

New players should also take advantage of available **Redeem Codes**.

You'll need your player **UID** when using the official Gift Center, so make sure you copy it correctly.

We'll eventually connect this page to:

Redeem Codes → Current codes and rewards

Gift Center & UID Guide → How to find your UID and redeem codes correctly

Diamond Reserve Guide → When to save diamonds and when spending them makes sense

Quick Beginner Checklist

- ✓ Complete the tutorial
- ✓ Follow your Main Quests
- ✓ Join an active alliance
- ✓ Prioritize your HQ and base growth
- ✓ Save your diamonds
- ✓ Claim available free rewards

5 SAVE YOUR DIAMONDS

Diamonds are valuable, especially for new players. Don't waste them on unnecessary items. Save them for high-value opportunities that give you the best long-term benefits.

DON'T WASTE DIAMONDS ON:

- Random chests**
Low value and unpredictable rewards.
- Timer speed-ups**
Save diamonds for important events instead of short timers.
- Unnecessary purchases**
Avoid items that provide little long-term value.

SAVE DIAMONDS FOR:

- Guaranteed hero summons**
Better chances at strong heroes.
- Important events**
Such as Lucky Discounter and other limited-time events.
- VIP upgrades**
Great long-term benefits.

PATIENCE PAYS OFF!

DON'T FORGET YOUR FREE REWARDS

New players should take advantage of available redeem codes. You'll need your player UID when using the official Gift Center, so make sure you copy it correctly.
